

MIHLE MNCUNZWA

FRONTEND DEVELOPER

OBJECTIVE

Computer Science graduate (April) with a strong focus on frontend development and UI/UX design. Experienced in designing and implementing responsive, user-friendly web and mobile interfaces using modern frameworks. Skilled in translating wireframes and mock-ups into clean, maintainable code while balancing functionality, performance, and visual design. Seeking to contribute to collaborative, client-focused frontend projects.

EDUCATION

BACHELOR IN COMPUTER & INFORMATION SCIENCE 2023- 2025

IIE VARSITY COLLEGE

- Focus on software development, system design, and user-focused application development.

HIGHER CERTIFICATE IN MOBILE APPLICATION AND WEB DEVELOPMENT 2022

IIE VARSITY COLLEGE

- Built foundational skills in frontend development, UI design principles, and mobile-first application development.

TECHNICAL SKILLS

Languages & Frameworks:

HTML, CSS, JavaScript, React.js, Tailwind CSS, Jetpack Compose
ASP.NET MVC, .NET Core, Firebase, REST APIs

Design & UI/UX:

Figma, Framer, Webflow

Tools & Platforms:

Git & GitHub, Visual Studio Code, Visual Studio, Android Studio, AI Coding Tools (ChatGPT, Claude, Cursor, Bolt

Languages:

SheCodes Basics, SheCodes Web Development (in progress)

EXPERIENCE

Lablab.ai Hackathon [Software Developer] 2025

Co-developed IBM ProfitBot, an AI sales agent built with watsonx Orchestrate. Responsible for frontend development, database design, and system integration with backend services to deliver lead prioritization, automated outreach, and real-time revenue insights.

ChefGPT Mobile App [Frontend Developer] 2025

Designed and implemented responsive frontend interfaces for an AI-powered mobile application, focusing on usability, visual clarity, and performance. Collaborated with backend developers to integrate APIs and ensure a seamless user experience across devices.

Claims Management System [Full-Stack Developer] 2024

Developed a responsive claims management system with role-based access and secure authentication. Built reusable UI components, validated dynamic forms, and integrated backend services, ensuring maintainable code and consistent user experience across devices.

Freelance Software Development [Frontend Developer] 2024

Design and develop user-focused web and mobile applications, translating client requirements and wireframes into responsive, visually consistent interfaces. Emphasized clean, maintainable code, cross-device compatibility, and collaborative delivery using Git-based workflows.
