PROJECT EXPERIENCE

Lablab.ai, Hackathon— *Software Developer*

November 2025

Led React.js frontend development for an Agile prototype, ensuring accessible, cross-browser UI while integrating REST APIs and synchronizing data with backend services.

Emeris, ChefGPT— *Frontend Developer*

August 2025 -September 2025

Designed and delivered high-performance, mobile-friendly UI components using **Kotlin and Jetpack Compose**, translating design mockups into pixel-perfect layouts and integrating real-time API data for a seamless user experience.

Emeris, Claims Management— *Fullstack Developer*

June 2025 - July 2025

Developed secure, component-based frontend pages using **C#**, implementing dynamic forms with a focus on accessibility and clean structure while integrating backend APIs to support full CRUD operations.

EDUCATION

Emeris, *Bachelor in Computer and Information Science*

March 2023 - December 2025

Focused on software development, frontend engineering, system design, and user-centred application development.

Emeris, *Higher Cert in Application and Web Development*

March 2022- December 2022

Built a strong foundation in mobile-first design, frontend development, and practical application development using modern tools and frameworks.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6), React.js, Tailwind CSS

Design & UX: Responsive Web Design, Mobile-First Design, Cross-Browser Compatibility, UX/UI Principles

APIs & Data: REST APIs, SQL Server

Tools & Platforms: Git, GitHub, Visual Studio Code, Microsoft Azure

SOFT SKILLS

Problem Solving, Adaptability, Collaboration, Communication, Attention to Detail

CERTIFICATION

SheCodes Basics

SheCodes Web Development (*In Progress*)

LANGUAGES

isiXhosa, English
