

MIHLE MNCUNZWA

Full-Stack Engineer

Port Elizabeth, South Africa | +27 67 342 5533 | mishssmicroso@gmail.com

[Portfolio: https://mishssspace.co.za](https://mishssspace.co.za)

PROFESSIONAL SUMMARY

Recent Computer Science graduate with hands-on experience in full-stack web development. Proficient in Next.js, React, and modern JavaScript development. Proven ability to deliver high-quality code, debug complex issues, and collaborate in Agile teams. Experienced with version control, SQL databases, and testing best practices.

EXPERIENCE

Full-Stack Developer – Madolo Construction Website

Live Client Project | 2025

- Architected and developed a responsive Next.js website with Supabase integration for real construction company
- Implemented component-level UI including hero sections, dynamic content, and video playback features
- Used Framer Motion for smooth animations; Tailwind CSS for responsive design
- Debugged environment setup, Git workflows, and dependency management
- Delivered production-ready code meeting web standards and performance benchmarks

Frontend, DevOps & Database Engineer • AI-Driven Sales Automation Hackathon

November 2025 | Lablab.ai, Remote

- Built responsive dashboards and UI components using React, Vite, and Tailwind CSS for an AI-driven sales automation agent within a 48-hour sprint
- Architected database structures to optimize lead prioritization, sales insights, and workflow data processing; integrated frontend with backend APIs for real-time data visualization
- Delivered a complete end-to-end agentic AI system with IBM Watson Orchestrate; managed deployment and infrastructure configuration

Full-Stack Developer • Claims Management System

July 2025 – September 2025 | Academic Project

- Developed an ASP.NET Core MVC application with secure role-based access control, claims workflow automation, and responsive user interfaces
- Implemented form validation, data integrity principles, and dynamic navigation tailored to distinct user roles

Frontend Developer • Portfolio Website

December 2025 | Personal Project

- Designed and developed a responsive personal portfolio using HTML, CSS, JS
- Showcases selected projects, technical skills, and contact information with a modern, user-focused interface.
- Optimized for performance, accessibility, and responsiveness across desktop and mobile devices.

SKILLS
